Mumbai, Maharashtra | +91 9606729645 | subashpatra7619@gmail.com | linkedin.com/in/subash-patra | github.com/subash-patra

SUMMARY

AI/ML enthusiast and Computer Science undergraduate with hands-on experience in Python, machine learning, and natural language processing. Skilled in building end-to-end ML applications using scikit-learn, pandas, and Streamlit, with a track record of translating academic training into deployable projects. Completed 225+ hours of structured AI/ML and Python training through nationally recognized skilling programs.

EXPERIENCE

AI/ML Trainee Intern

June 2026 – September 2026 (Ongoing)

InternshipStudio.com

Remote

- Completing an intensive Machine Learning training program covering supervised learning, model evaluation, and applied NLP techniques
- Building and deploying a capstone ML project as the program's final deliverable, due September 2026
- Attending 40+ hours of structured lectures and hands-on labs on Python-based machine learning workflows
- Applying classroom concepts directly to an independent NLP project (AI Resume Analyzer) developed in parallel

EDUCATION

Amity University

Mumbai, India

Bachelor of Technology in Computer Science (AI/ML Specialization)

Aug. 2024 – Expected 2028

- GPA: 8.08/10 ($\approx$ 3.23/4.0 US scale)
- Relevant Coursework: Machine Learning, Data Structures, Natural Language Processing, Python Programming

PROJECTS

AI Resume Analyzer | *Python, Scikit-learn, pdfplumber, Streamlit, Pandas*

[GitHub](#)

- Built an NLP-powered resume screening tool that evaluates resume-job description compatibility and flags missing skills, using TF-IDF vectorization and cosine similarity
- Evaluated system performance on [X] resume-job description pairs and deployed the application online with full documentation on GitHub

SKILLS

Programming Languages: Python, Java, C, C++, SQL

Web Technologies: HTML, CSS

Frameworks & Libraries: Scikit-learn, Pandas, NumPy, Matplotlib, Seaborn, Streamlit

Tools: Git, GitHub, VS Code

Concepts: Machine Learning, Natural Language Processing (NLP), TF-IDF Vectorization, Cosine Similarity, Data Preprocessing

CERTIFICATIONS

- **AI-Machine Learning Engineer Foundation Course** – Reliance Foundation Skilling Academy (via Skill India Digital) – 120 hours – June 2026
- **Python Programming** – Reliance Foundation Skilling Academy (via Skill India Digital) – 90 hours – May 2026
- **Introduction to Generative AI, Artificial Intelligence and Machine Learning** – SFJ Business Solutions Pvt Ltd (via Skill India Digital Hub) – 15 hours – May 2026
